TANZANIA

Tanzania is Africa's visual masterpiece. It is a country of natural splendour, astounding year-round wildlife, seductive beaches, archaeological sites and geological wonders. Africa's highest mountain, Mount Kilimanjaro, rises from lush, grassy plains and towers over the land. Its snow-capped peak is a sight to behold. Climbing Kilimanjaro and standing on the roof of Africa is a life-changing experience. The ideal bush and beach destination, visitors to Tanzania can witness the mighty herds of the Great Migration thundering across the Serengeti plains and end their unforgettable safari with a serene beach holiday on Zanzibar, the intoxicatingly beautiful and exotic Spice Island.

FAST FACTS

Currency

Local Currency: **Tanzanian Shilling**

Accepted Currency: **USD**

How to Spend it

Tanzanite and Tsavorite Gemstones
 From violet to vivid green, Tanzania's prized gemstones offer the perfect memento of your stay.

Traditional handicrafts
 Be sure to take home a brightly-coloured Maasai shuka, beaded fly-swatter or a small wooden Dodoma puppet.

Chai bora tea
 Tanzania's delicious blend of tea.

In Numbers

Population: **55,3 million**

More than **25%** of Tanzania is dedicated to conservations areas, protecting over **20%** of Africa's large mammals.

Mt Kilimanjaro: **5,895 meters (19,340 feet)**

Tanzania is bordered by **8** countries.

90% of Tanzanians live in rural areas.

Tanzania boasts **125** tribes.

The Serengeti National Park, is home to over **1.7 million** wildebeest and about a million other animals.

Tanzania spans **945 087 km²**.

The ancient fossils excavated at the Olduvai Gorge, date back **2 million** years.

Home to **3** of the largest lakes on the continent- Lake Victoria, Lake Tanganyika and Lake Nyasa.

1,2,3

Did You know?

Capital cities: **Dodoma and Dar es Salaam**

The world's earliest human skull was found in the Olduvai Gorge in Tanzania.

Chumbe Island is home to the coconut crab, the largest crab in the world.

Tanzania is one of the most important tea-producing countries in Africa.

Food

Ugali - a dish of maize flour (cornmeal), millet flour or sorghum flour; cooked with water to a porridge or dough-like consistency.

Nyama choma (roasted meat). Mbuzi (goat) makes the finest nyama choma!

Chapatti - traditional Tanzanian flat bread similar to Indian flatbread or roti.

Coconut bean soup - often served as a main course in Tanzania.

* Poor connection due to: Layover time / no connection / peak periods only / private charter required. ** Includes flight to Manyara and 2hr road transfer time.
 Disclaimer: All flights may include multiple stops and scheduling is a guideline - times will vary and scheduling is coordinated mainly by operations teams on the ground.
 Flight schedules are more limited in off-peak periods. Above times are based on best-practice logistics and exclude transfers to and from lodges.

Care of the Land, Wildlife & People

At **BEYOND Klein's Camp**, our unique partnership with the Maasai has allowed them to earn revenue off the land, which they have dedicated to conservation rather than hunting. Additionally, our community development partner, Africa Foundation, funded the development of the Ololosokwan Clinic, which provides healthcare to over 5 000 people, and built the Ololosokwan Primary School, which boards 750 children from local communities. Guests can experience the impact of these initiatives, and engage with the Maasai, when staying at the lodge.

At **BEYOND**, every decision we make revolves around the preservation of Africa's people and wildlife areas. The way we operate is extended by our careful selection of like-minded travel partners such as the Ruaha Carnivore Project, which actively works to develop conservation strategies for the large carnivores of the Ruaha eco-system.

Caught on Film

Stand on the rim of the Ngorongoro Crater and capture an iconic shot of the landscape below.

Ask a Maasai if you can take their picture or take a photo of them herding their cattle amidst the wildlife.

Capture the essence of a Tanzanian safari with an awe-inspiring photo of the Great Migration.

NORTHERN SAFARI

TARANGIRE NATIONAL PARK

One of the lesser-known game reserves in Tanzania, Tarangire rivals the Serengeti in the great number and diversity of its wildlife. It is a good choice for travellers who wish to encounter more animals (particularly elephants as it's renowned for frequent sightings) and less tourists while on safari. The Tarangire National Park is also known as a wonderful birding destination. During the dry season, the Tarangire River is the only source of water in the area, which offers excellent sightings as it attracts the reserve's abundant wildlife. The landscape is a photographer's dream too, due to the high number of scenic baobab trees and its extensive marshlands that turn swathes of the reserve a brilliant green.

TARANGIRE
NATIONAL PARK

SERENGETI NATIONAL PARK

The Serengeti National Park, meaning "endless plains" in the Maasai language, is undoubtedly one of the world's most celebrated wilderness areas and is an ongoing source of inspiration to writers, filmmakers and photographers. It is Tanzania's oldest game reserve, and renowned as the site of the annual Great Migration, when over two million animals – mostly wildebeest – migrate to Kenya's Masai Mara National Reserve. This epic, seasonal journey is a deeply moving experience and a wonderful photographic subject. Visitors to the park can roam its sprawling plains on exhilarating game drives or hop into a hot-air balloon for a once-in-a-lifetime wilderness adventure.

SERENGETI
NATIONAL PARK

NGORONGORO CRATER

The Ngorongoro Crater in northern Tanzania, once a gigantic volcano, is the largest intact caldera in the world. Some maintain that before it erupted, it would have been higher than Mt Kilimanjaro, the highest peak in Africa. Today, long since having collapsed and eroded, it is an extensive highland area with the famous 600 metre deep Ngorongoro Crater as its focal point. Nearly three million years old, the ancient caldera shelters one of the most beautiful wildlife havens on earth. Endangered black rhino are protected within its rim, giant tusked elephants wander the forests, black-maned lions stalk the grasslands, and flamingos crowd the soda lakes.

NGORONGORO
CRATER

LAKE MANYARA NATIONAL PARK

Lake Manyara National Park offers a wilderness experience in diverse habitats, from its Rift Valley soda lake to dense woodlands and steep mountainsides. Here, the Great Rift Valley is at its most impressive, with the escarpment dropping some 500 metres down to the lakeshore. Apart from a spectacular setting, the park is famous for its unusual tree-climbing lions and huge flocks of pink-hued flamingos. The shores of the lake attract more than 400 species of birds, many of them waterfowl or migrants. Large herds of buffalo, cheetah, giraffe and impala roam the lake shores and the forested valley slopes.

LAKE MANYARA
NATIONAL PARK

ARUSHA

Situated beneath the towering peaks of Mt. Meru and Kilimanjaro, Arusha is renowned as the safari capital of northern Tanzania. This vibrant metropolis is home to numerous markets offering an array of Tanzanian souvenirs, as well as various enchanting retreats that ensure a comfortable stay. Arusha is the ideal stop-over destination before embarking on a safari or attempting to scale Kilimanjaro. Notable attractions include the Shangaa Shangaa Village, the Maasai Market and tours through the beautiful coffee plantations that dot the landscape.

The annual movement of wildebeest and other herbivores across the Serengeti-Mara ecosystem consists of more than 1.5 million wildebeest, 400 000 zebra, 18 000 eland and 200 000 Thompson's gazelle. The Migration is rarely the same in terms of precise timing and direction.

JANUARY – MARCH

The animals gather on the southern Serengeti plains, dropping their calves. The plains are a short drive from **&Beyond** Ngorongoro Crater Lodge and **&Beyond** Serengeti Under Canvas.

APRIL - MAY

The herds move north, towards the central Serengeti plains and the Seronera area. The **&Beyond** Serengeti Under Canvas camps follow.

JUNE

The herds move northwest, towards **&Beyond** Grumeti Serengeti Tented Camp. The luxury tented camps of **&Beyond** Serengeti Under Canvas reposition themselves.

JULY - OCTOBER

The herds start heading northeast, followed by the **&Beyond** Serengeti Under Canvas camps. The wildebeest must cross the Mara River before they reach Kenya's Masai Mara, to the west of **&Beyond** Klein's Camp. As the animals continue to move backwards and forwards across the river, the excitement can also be viewed from **&Beyond** Kichwa Tembo Tented Camp and **&Beyond** Bateleur Camp.

NOVEMBER - DECEMBER

Crossing back into the Serengeti, the Migration moves south, passing **&Beyond**'s Klein's Camp and Serengeti Under Canvas.

OFF THE BEATEN TRACK

KILIMANJARO

Standing vigil over Tanzania's untamed landscapes, the world's tallest free-standing mountain hails mountaineers and nature enthusiasts from all over the world. Kilimanjaro ascends above the clouds, standing at an impressive 5 895 meters (19 340 feet), offering an array of diverse habitats such as lush montane forests and an alpine desert, which concede to sparkling vistas of ice and snow. Despite its awesome height, Kilimanjaro is a relatively gentle hike; however, guides recommend basic fitness, as the main challenge is posed by the altitude. Those wanting to explore the mountain need not climb to the very top as special excursions cater for short hikes and picnic lunches on its slopes.

KILIMANJARO

RUAHA NATIONAL PARK

At 20 226 square kilometres (7 457 square miles), the pristine and untouched Ruaha National Park is the largest National Park in Tanzania. Ruaha is bordered in the north by the Kizigio and Rungwa River Game Reserves, and together they form a 26 500 square kilometres (10 230 square mile) conservancy, one of the biggest in East Africa. The focal point of the reserve is the Great Ruaha River, with its deep gorges and swirling rapids. The river is an excellent fishing destination. With over 10 000 elephant, 30 000 buffalo, 20 000 zebra and huge populations of lion and leopard (not to mention more than 500 bird species), Ruaha is a wildlife enthusiast's paradise.

RUAHA NATIONAL PARK

SELOUS GAME RESERVE

Secluded and off-the-beaten-track, the Selous Game Reserve offers visitors a slice of undisturbed wilderness, teeming with a spectacular array of fauna and flora. It was declared a World Heritage Site due to its dramatic landscapes and great diversity of wildlife. The Selous is one of the few big game reserves to allow hiking, offering nature lovers the chance to explore Tanzania's pristine landscapes on foot. Covering an area the size of Switzerland, it is amongst the largest protected areas in Africa and is relatively undisturbed by human impact.

SELOUS GAME RESERVE

MAHALE MOUNTAINS AND KATAVI NATIONAL PARKS

Home to the largest herds of buffalo on the planet, the Katavi National Park is a relatively untouched wilderness paradise, situated in the western area of Tanzania. The park is home to a plethora of antelope, elephant; and over 400 different bird species. Visitors can seek out the legendary tamarind tree, which is said to house the spirit of a great huntsman named Katabi. Nearby, set among the forested slopes of the Mahale Mountains, the Mahale Mountains National Park is renowned for being one of the best places in the world for chimp safaris. Some 50 species of animals have been recorded in the park, predominant among these being representatives from various monkey and ape families.

MAHALE AND KATAVI NATIONAL PARKS

DAR ES SALAAM AND COAST

Despite its name, which means "abode of peace" in Arabic, Dar es Salaam is Tanzania's largest and busiest city. It is the country's most important business and commercial hub and is situated right on the Indian Ocean. It is the main port of call for most visitors, as it is an ideal location from which to access both the wilderness areas and the beaches of Tanzania and Zanzibar*. Most visitors en route to the better-known Tanzanian attractions are surprised by the charm of this unassuming city. Must-see attractions include the beautiful beaches of Kunduchi, Mjimwena and Mbwa Maji, Dar es Salaam's spectacular harbour and the local markets.
