## DESIGN

Concept design was carried out by WATG, leading architectural designers renowned for innovative designs with an innate sense of place. Following their creative vision for a resort inspired by its surroundings, our dynamic Portuguese architectural team, PROMONTORIO, developed a design shaped by hillsides and villages.

To preserve the warm sense of community experienced in local villages, the central Praça was created, which soon became the vibrant heart of the village. This spirit would spread throughout the bars and restaurants of the resort, new and smart architecture enriched by the heritage and culture of the inland Algarve.
